

What are the basic rules of Sudoku?

Sudoku grid consists of 9x9 spaces.

You can use only numbers from 1 to 9.

Each 3x3 block can only contain numbers from 1 to 9.

Each vertical column can only contain numbers from 1 to 9.

Each horizontal row can only contain numbers from 1 to 9.

Each number in the 3x3 block, vertical column or horizontal row can be used only once.

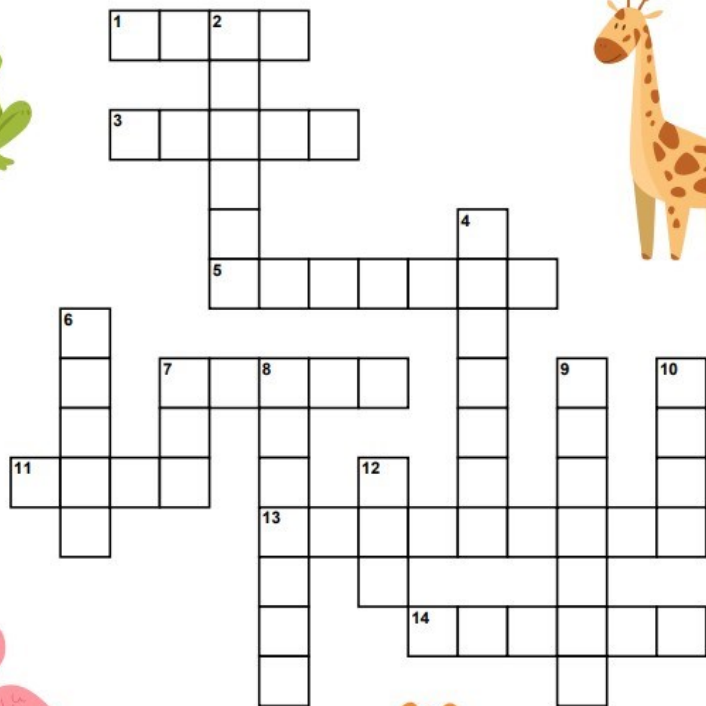

The game is over when the whole Sudoku grid is correctly filled with numbers.

To Our Valued Members,

Happy New Year to one and all! We hope each of you had a wonderful holiday season and we were so glad to see everyone at our Community Christmas Dinner. It was a great night and a great turnout!

Over the final weeks of 2023, we are pleased to share that we were able to support 27 of the 28 members who applied to the Member Assistance program. The spirit of giving was alive and well during this Christmas season! Given that this was the first true experience with the new Member Assistance program, we have taken all of the feedback from our members into consideration as we find ways to improve this support for the coming year. There was a lot of gratitude from the individuals who received assistance and we look forward to continuing to support our members in the future.

Council joins community members in thanking the ECD team for supporting Santa (Conrad) this Christmas by helping him deliver presents to the kids in our community with the fire truck. Council has a busy schedule again for the start of 2024 with our government to government table and we will be out of community every two weeks until the end of March.

We are very excited about the great things to come in 2024!

Chief & Council and the Team

Christmas 2023 in the community

Thank you all involved in the community Christmas Party and making that event so much fun!

We would like to wish everyone a Happy New Year.

Month of December was a bit busy for the lands dept and the guardians. We went out looked at block layouts with dunkley up the akie and saw some of the progressive ways they plan to harvest in the new year. We also went to lands and economic development conference in Vancouver gaining progressive knowledge on different aspects of lands department development. The lands guardians were out on the land as much as the can, with the limited snow everything was accessible by truck and not able to use the skidoos this winter.

The land guardians also went out doing a moose survey with Tsey Keh Dene. We also assisted and joined in on the stone sheep survey with chu cho and would like to thank all who came out and provided information.

Mussi Cho (thank you)

Hi everyone,

When the new camp is up and running, we plan to offer fresh pizza sales. We are also looking at options for more food services in the community and where to locate the new restaurant as well.

Lastly, we hired a new cook at the camp who started late fall. His name is James Begg. He is doing well, and we are getting good responses for camp guests and even local community who help at the camp.
